TO THE PUBLIC.

THE PAPER MILL owned by the subscribers, and conducted by two European master workmen, Crofts and Wornick, is now in operation in manufacturing Paper. The experiment has been successful in making about two hundred reams of Wrapping Paper. In conjunction with those who are engaged in the same pursuit, we hope we shall be able to supply the growing demand of business and literature—and by which to prevent the importation of paper from foreign markets, and destroy our dependence upon other states, for this most valuable article. It will be our constant exertion to keep a quantity of the different kinds of paper, to supply our Fellow-Citizens; and make it so as to prevent complaint as to quality.

HAS lately been induced, from the rapid increase of his custom, to purchase a lot of ground, adjoining that on which he lives, for the purpose of building a dining room and alienable room, each 54 by 32 feet 10 inches, with six additional lodging rooms, and intends to finish them before the ensuing winter; which, together with his Tavern and house, will occupy a front of near one hundred feet in the most agreeable part of the town, and in the centre of business, being on the highest part of the public square. The distinguished preference which the first characters have already given him in his business, fills him with gratitude. LEXINGTON, FEBRUARY 19.

Our papers from Philadelphia are to the 28th ult. & those from the City of Washington to the 30th. The motion for re-ceding the District of Columbia, was lost in the house of Representatives, 65 to 42. They have agreed to a resolution "that provision ought to be made by law, for extending to the inhabitants of Louisiana the right of self government." A committee has been appointed to enquire into the expediency of providing for the more effectual preventing of fraud and forgery on the Bank of the United States. They were the most important subjects before Congress at the date of our last accounts. The Pennsylvania Judges, Shipping, Yates & Smith, who were impeached last year by the house of Representatives, have been tried by the Senate—when on the final question 13 members were against them, and 11 in their favor. The constitution requiring a concurrence of two thirds to remove a judge, they hold their seats.

From Europe, we have but little interesting intelligence—Under the New Bedford head a few articles will be found. We could certainly extract many articles, which would not be totally uninteresting; but our anxiety to lay before our readers the list of Lands sold for the non-payment of the Direct Tax, prevents our appropriating more of the Gazette for the publication of events of less importance. Those lists will be completed on Thursday morning.

New BRADFORD January 18.

The Editor is indebted to the attention of Capt. Stevens arrived here from Coves, for a file of the London "Morning Chronicle," from the 15th to the 24th inclusive; although twenty-one days later than before received, they contain but few articles of the first importance.

Sir George Rumbold, the British minister to the circle of Lower Saxony, who was lately seized by an armed French force at his house near Hamburg, in pursuance of an order from the minister of Police, at Paris, has been liberated through the interference of Prussia, and has arrived in London. It appears that this interference was very promptly exerted; and the Editor of the Morning Chronicle places a considerable stress upon the fact, as an evidence that Prussia is resolved to a sense of the dangerous tendency of the French Emperor's encroachments upon the independence and rights of the neighbouring states. The court of Berlin, it is further said, has communicated to the Senate of Hamburg assurances on the part of his Prussian majesty of effectual support, and his resolution to maintain the neutrality of the circle. It is understood that the papers of Sir G. Rumbold,

which were found at his country house, were of no importance, his principal papers being at Hamburg.

The Porte, it appears, has refused to acknowledge Bonaparte's imperial dignity. In consequence of which, Gen. Brune, the French Ambassador at Constantinople demanded his passports on the 6th, and left that city on the 12th of Oct. on his return to France. The Grand Seignior, it is said, declaring to the French Ambassador, that by virtue of stipulation subsisting between him and the Emperor of Russia, he was bound to consult the Emperor Alexander on the subject. It is stated, that he has assured the different ministers, however, that should a war take place between Russia and France, he shall endeavor to remain neutral. M. Ruffin remains at Constantinople as French commercial Agent.

The relations between the cabinet of St. Cloud and that of Vienna, appear to be intimate and friendly. Denmark and Sweden remain inactive.

The subject of "the invasion" is scarcely noticed in our London papers. At the last dates, Admiral Cornwallis had resumed his situation off Brest.

DREADFUL FIRE

GOTTENBURGH, Nov. 2.—Yesterday morning about 2 o'clock a dreadful fire broke out here, which continued to burn with unremitting fury until ten, during which time (the houses being chiefly wood) it consumed the whole South-west part of the city; the large new barracks which were built with brick and cost 40,000l. sterling, the two Royal Magazines of grain, the Post Office, and the Episcopal house, the Free-Mason charity school, together with two between and three hundred houses were entirely destroyed; the distresses of the sufferers; particularly the poor at this inclement season, is very great, but every means is taken to alleviate it. The rich and patriotic merchant, Mr. John Hall, has with a humane zeal which always distinguishes him, opened his spacious house and premises for as many as it will contain and has given up his private Theatre for the use of the Free-Masons charity children; several others have followed his example. It is ascertained that the fire has dislodged more than 70,000 people, and has fairly deformed one of the handsomest cities in the North of Europe.

From the Orleans Gazette, Extra—Dec. 31.

The following resolution was, on Saturday last moved in the Legislative Council, by Mr. Pollock—which (from the interest it will excite) we hasten to lay before the public:

Whereas certain troops of his Catholic Majesty yet remain in this city, appearing daily in its streets with arms, to the great annoyance of the good citizens thereof. And whereas a guard is regularly mounted at the house of the Marquis de Cava Calvo by those troops who are said to be detained for that purpose solely. And whereas the government of the United States, hath ever held inviolate the rights of hospitality, by a full protection of those who are under its laws, without foreign aid;

Resolved, As the sense of the members of the legislative council, that such practices are not only dangerous to the peace and quiet of this city, but derogatory to the dignity of the government of the United States, and an infringement of its sovereignty.

Resolved further, That the president of the council be directed forthwith to transmit a copy of the preceding resolution to his Excellency the Governor of this Territory. Which resolution was read the first time, and agreed to.

Ordered, That the above resolution be taken into farther consideration on Monday next.

BARDSTOWN, February 1.

WE are informed that the SMALL POX continues to spread in Hardin county. Persons residing in the neighbourhood have generally introduced inoculation.

DIED—A few days ago of the Small Pox Mr. Francis Parpoint, of Hardin county.

We can state, on the authority of letters from Madrid, as late as the 8th Nov. that the British minister has left the Spanish court; and that no doubt existed of a war between the two countries.

The Spanish frigate La Vengeance is arrived at Cadiz, and the frigate L' Amphitrite at Corunna, both from America, with 6,300,000 dollars. Another frigate, La Sabina, with seven millions was expected.

Boston Chronicle

Nineteen ladies, passengers on board the Spanish ship, which blew up in the engagement with the British frigates, perished.

LONDON, November 4.

The Senate of Hanburgh has acted with more spirit on the occasion of the arrest of Sir Geo. Rumbold, than we should have expected from its humble condition;—It not only presented an energetic remonstrance to Citizen Reinbars on this violation of its neutrality and the law of nations, but also sent a strong protest to Paris and to Berlin. Vienna, Petersburg and Ratisbou.

Yesterday we received a letter from Bilbao, dated the 28th ult. by the ship Camilla arrived at Bristol, which states, that the seizure of the Spanish frigates had created the greatest sensation in Spain. A war with this country was considered inevitable.

The occasion of the late disturbances at Bilbao is likewise the source of strong objection and offence on the part of the British and American governments. Bilbao has hitherto been a sea port, and has in consequence enjoyed a very extensive trade, particularly with the United States; but the king having elected to subject it to the same duties and regulations imposed on the other towns, our commercial agents remonstrated, & the people adopted more summary means to prevent the system so injurious to them. Admiral Masséno (who commanded the Spanish fleet at Brest last war,) was Governor of the province of Biscay, and after ineffectual endeavors to suppress the discontent, was obliged to fly. Fifteen thousand troops advanced against Bilbao, by way of Santons, and the necessary military stores were conveyed by water; but the natives being unprepared to resist so large and so unlooked for a force, were compelled to submit, without bloodshed, and the new imposts have been enforced, although the whole province continues in a state of alarming ferment.

This measure is likely to increase the misunderstanding subsisting between Spain and America, and will necessarily affect our relations with that country.

The Spaniards, in contemplation of a war with England are busily employed in strengthening the numerous ports along their coast where some new works are carrying on. The battery at the entrance of St. Andero, has been increased from four to ten guns, and the like has been done in numerous other places.

The Barbary States having restricted the exportation of grain, in consequence of the great demand from Spain, flour at Gibraltar has attained the unusual price of 18 dols. per barrel of 196 lb.

The American prisoners are used with much severity at Tripoli; a number of them are yoked daily to a large waggon, and when heavily loaded with wood, are compelled to draw it back again.

November 6.

The accounts brought from Gibraltar by the Maidstone frigate, which left the Bay on the 11th ult. are most distressing. General Bannet, whom our last advices described as being most active in administering relief to the sick, and proving himself a father to the unprotected orphans, has fallen a sacrifice to his humanity. Letters to the 8th mention his indisposition; he became worse on the 9th, and died on the following day. Lord Pelham Clinton, Aid de-Camp to the General, shared his dangers and his fate. Major Raleigh is also dead.
